Accessories & Replacement Parts

- Longer Life - Because of the modular design, if a speaker / microphone or headband breaks out of warranty, you only need to replace half of the headset (one part), which means a longer life for the headset and a cost saving because you do not need to replace the complete headset.
- Cost of ownership reduced - why change the whole headset when changing half is the solution!

SKU:

TT3 EVO BOOM: 575-097-000
TT3 MON HEADBAND: 575-097-001
TT3 BIN HEADBAND: 575-097-002

Upgrade your JPL headset by adding the **‘EC-16’ 70mm** ear cushion

EC-16

The **‘EC-16’** 70mm ear cushion fits simply onto our Element TT3 monaural and binaural headsets, surrounding your ear with the large cushion to allow you to concentrate on the call and not be distracted by conversations around you. Once you have removed the existing 50mm ear cushion, the **‘EC-16’** bracket simply clips onto the speaker holder and then the 70mm smooth leatherette ear cushion slips neatly over the bracket.
